

Tele-imaging in MEDicine

May 2006

Edition: 4

The first China PACS/RIS conference was held during April 14-17, at Jinjiang Hotel, Beijing, and attracted more than a hundred delegates from 7 countries. Although most of delegates are from mainland China, many of them are from foreigner companies such as Siemens, Agfa, Kodak, and FujiFilm. This conference saw huge progress on the development of medical imaging in China. TIME European team have been invited to give talks on the development in Europe.

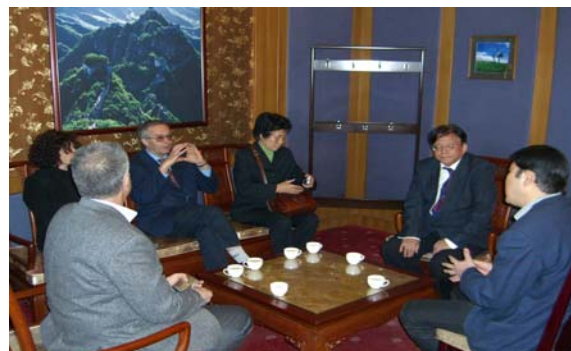

Prof. Kalamoukios detailed his newly awarded research project on multilingual retrieval project on medical images.

TIME Project Meeting

TIME project meeting took place at Capital University of Medical Sciences, Beijing where Prof. Luo works, on April 13. The vice chairman (right) of the university also joined the meeting and invited the team for a lunch.

Dr. Gao introduced EU Asia IC&T programmes and the currently advances on telemedicine in Europe.

During the meeting, the project plans were discussed including the upcoming event on joining EuroPACS at Norway in June 13-17, 2006. It is proposed Prof. Kalamoukios would write invitation letters to the Chinese partners in order for them to apply visa to Europe.

Whilst Dr. Clark focused on the research programmes currently being conducted in Cambridge.

operation on tumour removal by the assistant of a robot at Beijing Navy Hospital. Teleoperation via internet by the same team is also practiced to the other cities.

This work, led by Prof. Zhengmin Tian (left at below picture), who pioneered the key-hole surgery in China, has been well documented by China CCTV.

working place and was given demonstrations on the currently research development linked with TIME project.

The event has attracted media attention and well reported.

The event has attracted media attention and well reported.

Visiting Fuzhou University

TIME team also visited Fuzhou university and was well received. They visited Prof. Lin's

欧盟“TIME”项目成员赴我校参加调研交流

<p>本报讯/生物医学工程研究所供稿 欧盟项目“Tele-imaging in Medicine (TIME):a cyber-bridge interfaces China with Europe on collaborative health care”项目成员</p>	<p>的2006年福州大学调研和学术交流会议于4月16日-19日在我校召开。4月17日,在怡山大厦省科技厅杜民副厅长亲切接见了参加欧盟“TIME”项目福州大学会议的成员</p>	<p>或后,杜门扉:希腊雅典理工大学副校长、信息学院院长 Theodor Kolombokis; 英国剑桥大学脑成像中心主任 John Clark 教授; 首尔医科大学全国著名医学图像专家罗</p>
		<p>康教授(博导)及周秉宏教授;福州大学生物医学工程研究所陈登毅教授。据见中社民研厅长强调了加强中款科技合作交流的必要性,与会的中外学者都备受鼓舞。</p>
