Visiting China from Switzerland

By Alba García Seco de Herrera

From Jul. 1st to August 31 2013, Miss Alba García Seco de Herrera, a PhD candidate, from the University of Applied Sciences Western Switzerland, visited the Ultrasound Lab at Fudan University, China for two months, as part of WIDTH project. During her staying in Shanghai she had the opportunity to know and share work experiences with the research group headed by Professor Yuanyuan Wang. The Ultrasound Lab presents part of their research work on ultrasound blood flow measurement, ultrasound image processing, and computer-aided-diagnosis system based on ultrasonic images.

Alba also had the opportunity to visit United Imaging Healthcare in Shanghai Advanced Research Institute. This is a company dedicated to the development, manufacturing and sales of innovative medical imaging equipment and technologies.

She seemed to have a life experience in one of the biggest cities in the People's Republic of China, including dining and culture.
